

INVESTMENT BANKING ANALYST

Fairmount Partners is a leading, independent middle-market M&A advisor to clients in the Healthcare, Consulting & Technology Services, Technology, and Industrial & Consumer sectors. The firm's investment banking team has experience as operators, investors and dealmakers. Fairmount has closed over 240 transactions spanning 20 countries since its founding in 2003.

Fairmount is currently seeking an experienced Investment Banking Analyst for immediate hire in its Greater Philadelphia location. Analysts work directly with senior bankers in all facets of the business, including transaction evaluation, preparation, marketing and processing. From day one, Analysts will assume a hands-on role in a team environment, interfacing with clients and related parties in live transactions.

To apply, please submit your resume and cover letter.

Responsibilities:

- Preparing valuation analyses, including public comparable companies and precedent transactions analyses
- Performing industry, market and competitor research, and due diligence
- Supporting the preparation of high-quality marketing materials, such as Information Memoranda and Management Presentations, describing clients' businesses, future growth prospects and possible synergies with potential buyers
- Preparing detailed financial analyses to effectively model clients' businesses and future growth opportunities
- Identifying and researching potential buyers, investors or targets for each engagement
- Managing transaction data and logistics, including coordinating large funnels of potential buyers and/or targets, developing weekly client status reports and administering electronic data rooms

Requirements:

The ideal candidate would exhibit the following credentials and characteristics or an equivalent combination of experience, education, and training deemed relevant to the analyst role:

- At least one year of investment banking or relevant M&A advisory experience (e.g. business valuation, financial due diligence or equivalent experience at a leading accountancy or consultancy)
- Undergraduate degree with emphasis in business or accounting
- Robust financial modelling skills and understanding of financial statements and accounting principles
- Strong analytical and organizational skills and attention to detail
- Strong interpersonal and communication skills, including writing
- Strong work ethic and ability to cooperate and work collaboratively within a team
- Expert knowledge in MS Excel and MS PowerPoint
